PROFILE

A software developer with a focus on development, adept in various other domains including software testing, deployment, DevOps (Azure & AWS), mobile development, and machine learning. Currently positioned at mid-level and poised to ascend to a senior role within the next few years, leveraging existing experience and a steadfast dedication to ongoing advancement. Proven track record of excelling both within collaborative teams and autonomously.

WORK EXPERIENCE

Software Engineer

May 2024 – present

activpayroll Sdn. Bhd.

- Developed RESTful APIs using .NET and Entity Framework to streamline payroll processing, cutting processing time from hours to minutes and eliminating calculation errors.
- Managed and optimized MSSQL databases, reducing query response times from 15+ minutes to sub-second, maintaining performance even during month-end processing peaks.
- Designed and implemented complex Stored Procedures for client-specific requirements, automating previously manual reporting tasks and enabling real-time financial insights.
- Developed custom JWT-based authentication mechanisms, enhancing data security and supporting compliance with industry standards.
- Utilised Azure DevOps for CI/CD pipelines, enhancing deployment efficiency and significantly decreasing production defects.
- Participated in Agile sprints using Azure DevOps, enhancing team productivity and consistently meeting delivery deadlines.
- Participated in code reviews that significantly reduced the bug rate in production and accelerated onboarding time for new developers.

Tech stacks: ASP .NET, C#, Angular, TypeScript, MSSQL, DevOps, Docker

Software Developer

Aug 2023 – May 2024

FPT Software Malaysia

- Developed Rest APIs using ASP.NET Core with Entity Framework, and NodeJS with Sequelize, facilitating seamless communication, which improved system interoperability and enhanced user experience.
- Maintained MSSQL and MongoDB databases, ensuring data integrity, security, and optimal performance, leading to increased reliability and trust in data-driven applications.
- Integrated API endpoints using Angular and React front-ends, ensuring smooth data flow, which resulted in faster and more responsive user interfaces.
- Implemented Auth0 and custom JWT-based authentication for API security, significantly strengthening data protection and reducing vulnerabilities.
- Optimized database queries to enhance Entity Framework performance, leading to faster data retrieval times and improved application efficiency.
- Contributed to code reviews and E2E tests, promoting code quality, reducing bugs, and fostering a culture of continuous improvement.

Tech stacks: ASP .NET, C#, ReactJS, TypeScript, MSSQL, MongoDB

Full Stack Developer

May 2022 – Aug 2023

WPH Digital Ltd

- Developed and managed C# .NET and JSP websites for government agencies, ensuring robust functionality and user experience.
- Administered MSSQL databases, upholding data integrity, security, and optimizing performance for seamless operations.
- Established and configured DevOps workflow for the internal development team, streamlining the development process and increasing efficiency.

- Collaborated with stakeholders to gather requirements and deliver tailored solutions for government projects.
- Conducted training sessions for team members on new technologies and best practices in web development.
- Implemented security measures to safeguard sensitive data and ensure compliance with government regulations.

Tech stacks: ASP .NET, C#, Java, Vue, TypeScript, MSSQL, DevOps, Sass

Java Programmer

Dec 2021 – Apr 2022

Silverlake Axis

- Played a role in the full software development life cycle of a banking solution for a public bank in Brunei.
- Provided support and troubleshooting for MSSQL-related issues during development and deployment phases.
- Leveraged Java, JSP, Apache, Spring Boot, Hibernate, and other technologies to deliver a robust and scalable solution.
- Collaborated with stakeholders to gather requirements and design system architecture tailored to the bank's needs.
- Implemented and optimized features using Spring Boot and Hibernate, ensuring high performance and reliability.
- Contributed to web development efforts, delivering user-friendly interfaces and seamless experiences for bank customers and employees.

Tech stacks: Java Spring Boot, Hibernate, MSSQL, Jenkins,

Software Tester Intern

Aug 2021 – Nov 2021

MIMOS Berhad

- Conducted System Integration Testing (SIT), System Testing (ST), and User Acceptance Testing (UAT) on various systems developed by MIMOS and its vendors.
- Coordinated testing activities using JIRA to ensure seamless integration and functionality across multiple systems.
- Collaborated closely with development teams and vendors to identify and resolve issues discovered during testing phases.
- Documented test plans, test cases, and test results to maintain comprehensive testing documentation.
- Provided feedback and recommendations for improvement to enhance the quality and reliability of the systems under test.

FREELANCE/CONSULTANCY

Full Stack Developer

Mar 2024 – present

Uniten R&D SDN BHD

Developing a monitoring dashboard for TNB switch gears to assist with preventative and corrective maintenance planning using machine learning model.

Skills: Python, Fast API, React, Tremor UI, DevOps, GitLab, Docker

Full Stack Developer

Aug 2022 – Aug 2023

Yayasan Canselor UNITEN

Freelance project with YCU and TNB Berhad (funder) for an online AI-Powered Python tutoring system for students and teachers of secondary public schools in Malaysia.

Skills: React, Mantine UI, Python, Flask, InertiaJS, Laravel, GitHub Actions (CI/CD), Linux Ubuntu VPS (self-managed hosting)

Mobile Developer

Mar 2023 – Jun 2023

TNB-IT Sdn Bhd

Development of machine-learning integrated Flutter mobile application, aiming to help visually impaired person to detect text with support for 7 segment digit recognition

Skills: Flutter (iOS and Android), Python, Flask, Rest API, VPS Hosting

External Consultant & Developer

Aug 2021 – Nov 2021

Uniten R&D SDN BHD | TNB SDN BHD

Trained machine learning models, integrated them into a web prototype under the AI-driven Customer Call Analysis System, and deployed the application using AWS Cloud Computing Services.

Skills: Python, Flask, TensorFlow, Machine Learning, Web Development, AWS (Cloud Computing)

EDUCATION

Bachelor of Computer Science (Software Engineering)

Oct 2019 – Dec 2021

Universiti Tenaga Nasional

- Graduated with 3.96 CGPA

FHND in Computing (System Development)

2015 – Oct 2018

Kolej Professional Mara Beranang

- Graduated Foundation with 3.98 and Diploma with 3.57

ACHIEVEMENTS/RESPONSIBILITIES

Dean's List

Universiti Tenaga Nasional

All semesters in UNITEN.

College Outstanding Performance Award (COPA)

All semesters in FHND.

SKILLS

Frontend Development

React, Angular, NextJS, Vue, Tailwind CSS

Backend Development

C# .NET, NodeJS, Fastify, Java Spring Boot, Python Flask and FastAPI, Rest API

DevOPS

CI/CD pipeline, Linux, AWS Cloud Computing Services, Azure DevOps Services, Platform (VPS and Docker containers)

Database

MySQL, MSSQL, PostgreSQL, MongoDB

OOP Programming

C, C++, C#, Java

Machine Learning

TensorFlow, sklearn, Flask

Mobile Development

Flutter, React Native

PROJECTS

Python Tutoring System for Malaysian Public Secondary Schools

YCU Community Grant

- PHP (Laravel), React, InertiaJS, Mantine UI, VPS (Hosting and server)
- A Python Online Tutor app with machine learning integration for students and teachers in Malaysian Public Secondary Schools

NZ Labour Party Website

Advanced Web Development

Laravel, HTML, CSS, JavaScript, MySQL

AI-driven Call Analytics System

TNB Seed Fund Project

Python, Flask, HTML, CSS, JavaScript, Celery, MySQL

Covid Hotspot Geolocation Alert (UNISAFE)

Mobile Development

Xamarin, Android, XML, C#

CERTIFICATES

- AWS Partner: Accreditation (Technical) [↗](#)
- Microsoft Certified: Azure Developer Associate [↗](#)
- Microsoft Certified: DevOps Engineer Expert [↗](#)
